

Steven Wimberly

(281) 841-0940 | smw4789@my.utexas.edu

EDUCATION

Bachelor of Science, Electrical & Computer Engineering (Honors Program)

May 2029

The University of Texas at Austin

Relevant Coursework: Computing in Assembly, Intro to Electrical Engineering, Software Development in C/C++, Linear Algebra

WORK EXPERIENCE

Intern Robotics Engineer, Kurtin Robotics Company

Summer 2026

Electrical Power Systems Team Member, Texas Spacecraft Laboratory

2025 - Present

- Defining EGSE architecture for CubeSat electrical validation (power rails, current sensing, fault detection)
- Developing initial KiCad PCB with voltage/current measurement, MCU control, and USB interface
- Planning EGSE integration with satellite EPS to verify power distribution and subsystem behavior
- Planning flight preparation panel which reroutes signals from inside the satellite to the EGSE

Physics Research Intern, Massachusetts Institute of Technology

Summer 2024

- Selected for Boston University's RISE Program; placed under Dr. Jagadeesh Moodera at MIT
- Conducted 200+ hours of experimental research on spin-orbit torque phenomena
- Performed harmonic analysis, thin-film fabrication, and resistance measurements
- Presented findings on magnetic switching phenomena to MIT Plasma Science and Fusion Center research group

PROJECTS

NASA High School Aerospace Scholars

2023 - 2024

- Completed competitive year-long NASA program with weekly technical deliverables and design challenges
- Collaborated with NASA engineers during week-long online design simulation

LED Controller PCB

Present

SKILLS

Programming: Python, C/C++, ARM Assembly, HTML/CSS, Git

Hardware: PCB design, Arduino, Soldering, Oscilloscope, Microcontrollers (ARM Cortex-M),

Software/Tools: KiCad, LTspice

Certifications

LPS Qubit Collaboratory Quantum Computing Summer Course

- Learned about Quantum circuits and algorithms, DiVincenzo Criteria, and Quantum Error Correction
